

## Environment-wildlife and our natural landscape

### How can we preserve them?

#### Public Meeting Comments:

Maintain green spaces such as community orchards, trees, meadows, playing fields – protect trees when developments undertaken and increase trees.

Consider clear, sustainable urban drainage solution that works for wildlife as well as humans

Public footpaths – how long does one need to be not used before it becomes obsolete

Solar panel viability for every new house built

#### Working Party Meeting:

Comments	Actions
<p><b>What positive changes do you think could be made to improve the landscape and environment of your area?</b></p> <p>CO2 and Greenhouse effect Keep it as it is? Renewable Energy Allotments- possibly created in the playing field Are we making the best use of the playing field? Protect the environment Recycling</p>	<p>More trees Allow hedgerows to grow to encourage wildlife Green spaces in new developments with more trees Encourage more use of the playing field – football and cricket</p>
<p><b>What changes happened to the local landscape which you did not like?</b></p> <p>Wind Turbine Loss of hedgerows at Greenwix Park</p>	
<p><b>Looking to the future, what changes do you envisage would have the greatest negative effect on the landscape of your area?</b></p> <p>Global Climate Change New Housing Wind turbines Solar farms Light pollution Poor developments</p>	<p>Stop bad developments Identify SSIs Become an AONB</p>
<p><b>Which aspects of the landscape do you consider the most important to conserve?</b></p> <p>Listed Buildings Treelines and Hedgerows Green spaces Wildlife Footpaths</p>	

## Environment-wildlife and our natural landscape

### How can we preserve them?

#### Working Party Meeting 19<sup>th</sup> June 2018:

Comments	Action
Essential to move the working party group forward between steering Group Meetings	Consult Cornwall Council Guidelines Look at completed NDPs e.g. Roche and The Roseland Research Establish want and how to achieve. Look at current provision
Landscape Character assessment needs to be carried out	Invite Kath Statton, Cornwall Council to come and talk to the group about landscape assessment
Look at protected areas, areas of great landscape value, tree preservation orders, county wildlife sites and SSIs.	Use Cornwall Council interactive maps. Link new development with landscape assessment
Footpaths Field boundaries, gates Cornish Hedges – should be preserved for their character and the wildlife	
<b>Playing Field</b> Preserve the wildlife boundaries	Look at covenants governing its use Make more use of the playing field Management of open spaces
<b>Renewable Energy</b> Better street lighting	Solar panels on new builds and promotion of energy efficiency
Impact of sewerage and drainage for new developments for wildlife – drainage into rivers etc.	
<b>Wildlife</b> Is there adequate provision for wildlife? Hedgerows etc Habitats for wildlife	What changes can be made to enhance and encourage wildlife? What is the noise and fumes impact on the environment? Encourage farmers to develop a wildlife border corridor Plant pollinator plants in gardens Nesting habitats
Significant areas of village or buildings that are character settlements	Identify Views and sight lines?
