

Community Facilities and Health and well-being

What can we do to make sure we live in a happy and welcoming place?

Public Meeting Comments:

Maintain what we have and find ways to support them.
 Car Park needed – 2 comments.
 Support the Post Office and shop.
 Encourage everyone to support what’s there – no more needed.
 Maintain designated public footpaths- some are disappearing at a rapid rate- lack of use (10years)?
 Is there any way of extending in perpetuity?
 Keep a shop here if possible.
 Ensure that we keep/improve our green spaces and make them accessible.
 Keep community facilities.
 Improve disabled access in developments.
 Improve/ install footpaths where possible and improve walk to school options.
 Safe area for schoolchildren i.e. bus shelter at Longstone.
 School Field and village park should be protected.
 Homes need gardens for healthy families.

Working Party Meeting:

<p>List all the community facilities that are currently available to local residents. Why are they important? What is missing? <u>Got</u> Shop/Post Office, Church, Parish Hall, School, Pub Playing Field, Scout Hut <u>Missing</u> Shop/Post Office soon to close</p>	<p>Want to keep all the facilities that we currently have including a shop and post office.</p>
<p>List as many community organisations, societies and clubs as you can think of. Categorise them for older and younger people. What is missing? <u>Older people</u> Gardening Club Snooker Club Bell Ringers Knitting Group Book Club Church Coffee Group Wood Turning <u>Younger people</u> Scouts and Cubs Parent and toddler group</p>	
<p>Why do you live here? What would make St Mabyn Parish an even better place to live? More clubs, organisations, classes, bringing the community together Live here for the peace and quiet, beauty of the landscape, natural flora and fauna. Must preserve. A better sense of community. Improve Broadband/Mobile communications links</p>	<p>Survey the community to ask what clubs, classes or groups people would like. Also survey people to find out what skills and talents they have to make these clubs and organisations work. This is not a Retirement Village it has to work for all</p>

Community Facilities and Health and well-being
What can we do to make sure we live in a happy and welcoming place?

<p>If housing development happens in the future what might be the negative impact? On the flip side if developments come with developer cash, how could that be used to benefit the community?</p> <p>Roads, services, transport to support the community. Too many people and not enough jobs or other amenities e.g. dentists. Busy roads especially the dangerous crossroads at Longstone. Want to maintain/improve a sense of community. Developer cash should support the upkeep and improve the Village Hall. Affordable Housing</p>	<p>To look to providing some sort of community transport service, capital cost to be provided by developers?</p> <p>Ask local people what we want and what skills we have – need to ensure maximum participation through visiting local existing groups, school etc. to get individual views.</p>

Working Party meeting 19th June 2018:

Comments	Action
<p>What are the most valuable community facilities?</p>	<p>How can they be developed or expanded on?</p>
<p>Shop/Post Office Social centre of the village Important for the mental health and wellbeing for all Poor public transport links so essential for shopping and collection of prescription medicines. Banking at Post Office</p>	<p>Land allocated for a shop in the village needs to be centrally located and have parking facilities Introduce a library system Coffee shop</p>
<p>Community Hall (Peace Memorial Hall) Users etc.: Snooker hall School use twice a week for P.E. Wood Turners Gardening Club Young Farmers Parish Council Belly dancers Pilates Bell ringers Art Group Project Parent Teacher Association Mistletoe Fair Coffee Mornings Rented out for parties etc.</p>	<p>Is the building fit for purpose? Could money from developers help towards the upkeep of the Hall? Needs to be a protected space for the community but can the buildings be changed? Could the Village hall be redeveloped to include a Community Shop, parking, snooker and all the facilities needed in one place? Possibly developers money? What would the users like to see? What needs are met/unmet? What do the Gardening Club think about Allotment space? Is it needed/wanted?</p>

Community Facilities and Health and well-being

What can we do to make sure we live in a happy and welcoming place?

<p>Scout Hall/Hut How thriving is it? Is there a waiting list? Is it self-supporting?</p>	
<p>King George V Recreation Ground A protected space for the village. A place for recreation and sport and wellbeing.</p>	<p>What else do people want in the recreation space? Would people like the Community Shop there? What other facilities would people like to see provided there? Need to do some research into chatting to all young people about how best to engage and involve them? Secondary and Primary Schools? Someone to approach the Young Farmers to see if anyone wants to engage?</p>
	<p>We want to allocate space for community things: Question: Where do you want to allocate space? –: Redevelop Community hall to include shop and parking? <u>OR</u> Develop shop and parking on King George V Playing Field?</p>
