

ST MABYN PARISH COUNCIL BIODIVERSITY POLICY

PREAMBLE

In accordance with the duty imposed on town and parish councils by Section 40 of the Natural Environment and Rural Communities Act 2006, updated by Section 102 of the Environment Act 2021, St Mabyn Parish Council will in exercising all its functions have regard to the purpose of conserving biodiversity.

This duty also means that town and parish councils can spend funds in conserving biodiversity.

DEFINITION

According to Defra (Biodiversity 2020), biodiversity is the variety of all life on Earth. It includes all species of animals and plants – everything that is alive on our planet.

Biodiversity is important for its own sake and has its own intrinsic value. A number of studies have shown this value also goes further. It is the building block of our 'ecosystems'. These provide us with a wide range of goods and services that support our economic and social wellbeing. These include essentials such as food, fresh water and clean air, but also less obvious services such as protection from natural disasters, regulation of our climate, and purification of our water or pollination of our crops. Biodiversity also provides important cultural services, enriching our lives.

AIMS AND OBJECTIVES

The object of this policy is to work towards enhancing and protecting the biodiversity of the Parish of St Mabyn.

All committees of ST Mabyn Parish Council will consider sustainability, environmental impact and biodiversity when making decisions and will develop and implement policies and strategies as required.

In particular, St Mabyn Parish Council will aim to improve the biodiversity of the area in the following ways:

- consider the potential impact on biodiversity represented by planning applications.
- manage its land and property using environmentally friendly practices that will promote biodiversity.
- support local businesses & council operations in the adoption of low impact practices.
- support residents and local organisation activities to enhance and promote biodiversity.

ACTIONS

Planning applications

- The council, when commenting on planning applications, will support site and building design that benefits biodiversity through the conservation and integration of existing habitats or provision of new habitats.

- It will support protection of sensitive habitats from development and will consider whether the development would mean the loss of important habitats for wildlife in respect of all applications.
- It will consider what each proposed development might make in terms of biodiversity net gain.

Land and property management

- The council will carry out a biodiversity audit of its landholdings.
- The council will consider the conservation and promotion of local biodiversity with regard to the management of its open spaces. This will include adopting beneficial practices with regarding to cutting and removal of vegetation, application of chemicals and timing of maintenance work.
- Special care will be taken in the specification of grounds maintenance contracts to ensure that the work, whilst reaching acceptable standards, does not harm the natural environment.

Local community

- The council will raise public awareness of biodiversity issues, including through its website.
- The council will engage with local businesses and residents wherever possible regarding biodiversity in the community and how members of the community can assist and make a difference.
- It will, where feasible, involve the community in biodiversity projects on its land including for example tree planting, wildflower meadows, bird box making.

Partners

- St Mabyn Parish Council will work in partnership with other organisations to protect, promote and enhance biodiversity within areas of the parish.
- It will review any local nature recovery strategies, species conservation strategies, or protected site strategies in respect of local sites of special scientific interest (SSSIs) and consider how it may become more involved in implementing the strategies' recommendations.

This policy will be reviewed each year at the Annual Meeting, together with a summary of how the policy has been implemented in the previous twelve months.

DRAFT MODEL ACTION PLAN

SITE / OBJECTIVE	ACTION	OUTCOME	TARGET (Years)	REPORTING / PUBLICITY
Whole council area	Raise local awareness of biodiversity.	Gain local support for action.	Ongoing	
Protect and support biodiversity	Encourage suitable planting to support biodiversity.	Connect & diversify habitats to meet the needs of a variety of wildlife species	Ongoing	Mapping

Recreation ground	<p>Sympathetically maintain hedging, trees and grass cutting.</p> <p>Only use environment friendly pesticides where absolutely necessary and only in ideal weather conditions.</p>	<p>Food sources & cover</p> <p>Sustain & enhance natural habitats.</p>		
Other open spaces	<p>Support tree planting, adopting the tree survey schedule and working with the tree surgeon.</p> <p>Encourage residents to remove litter and pick up after their dogs.</p>	<p>Sustain, enhance and extend natural habitats. Increase habitats with natural materials taken from fallen/felled limbs etc.</p> <p>Protecting habitats</p>	Ongoing	
SITE / OBJECTIVE	ACTION	OUTCOME	TARGET (Years)	REPORTING / PUBLICITY
The Built Landscape	<p>Ensure that planning consultations are considered against bio diversity</p> <p>Encourage hedgehog/small animal highways with permeable boundaries</p>	<p>Protecting/enhancing habitats</p> <p>Extending habitats.</p>	Ongoing	
Increase community	Ask residents for their views	Engagement/ownership of biodiversity	Ongoing	

<p>awareness of biodiversity</p>	<p>on what they would like to be done to conserve biodiversity within the parish.</p> <p>Raise awareness of the importance of gardens as habitats for wildlife.</p> <p>Create a page on the parish council website for bio diversity to include photographs / information / links</p> <p>Encourage local farmers to contribute.</p> <p>Discourage floodlighting.</p>	<p>Promote biodiversity.</p> <p>Promote biodiversity.</p> <p>Promote biodiversity.</p> <p>Protect nocturnal animals.</p>		
<p>Support Community Projects</p>	<p>Work in partnership with the school to develop young people's awareness of the environment around them.</p> <p>Consider events and offer volunteering opportunities to support biodiversity, working with local organisations.</p>	<p>Promote biodiversity.</p> <p>Promote biodiversity.</p>		<p>Establish links with the local school</p>
